EDUCATION

2012 **Ph. D. Microbiology**
The Ohio State University, Columbus OH

2006 **B. Tech. Biotechnology**
Anna University, Chennai, India

PROFESSIONAL APPOINTMENTS

Sep 2019– **Assistant Professor of Genetics**
Waksman Institute of Microbiology
Rutgers University, New Brunswick NJ

2017–2019 **Research Associate (NTT faculty)**
Rutgers University, New Brunswick NJ

2017–2019 **Visiting Researcher**
University of Pennsylvania, Philadelphia PA

2012–2017 **Postdoctoral Researcher**
University of Pennsylvania, Philadelphia PA

2010-2012 **Graduate Research Assistant**
Department of Microbiology
The Ohio State University, Columbus OH

2006–2010 **Graduate Teaching Assistant**
Department of Microbiology
The Ohio State University, Columbus OH

2006 **Undergraduate Research Intern**
Nicholas Piramal India Ltd., Mumbai, India.

2005 **Undergraduate Summer Research Fellow**
AU-KBC (Anna University-K B Chandrasekhar) Research Center, Chennai, India

2004 **Undergraduate Summer Research Fellow**
Dr. Reddy's Laboratories, Hyderabad, India

BOLD : Members of Yadavalli Lab

20. **Yadavalli SS*** and Yuan J*. (2022)
Bacterial small membrane proteins: the Swiss army knife of regulators at the lipid bilayer.
J Bacteriol. 204 (1): e0034421. doi:10.1128/JB.00344-21. *Corresponding author
Featured in the special section on *Small Proteins*.

19. Cope AL*, **Vellappan S***, Favate JS, **Skalenko K**, **Yadavalli SS**, Shah P. (2021)
Exploring ribosome-positioning on translating transcripts with ribosome profiling. In: Dassi E. (eds) Post-Transcriptional Gene Regulation.
Methods Mol. Biol. 2404: 83-110. doi: 10.1007/978-1-0716-1851-6_5. *Equal contribution
18. Favate JS, Liang S, **Yadavalli SS**, Shah P. (2021)
The landscape of transcriptional and translational changes over 22 years of bacterial adaptation.
bioRxiv : 10.1101/2021.01.12.426406
17. **Yadavalli SS***, Goh T, Carey JN, Malengo G, **Vellappan S**, Nickels BE, Sourjik V, Goulian M*, Yuan J*. (2020)
Functional determinants of a small protein repressor controlling a broadly conserved bacterial sensor kinase.
J Bacteriol. 202 (16) *Corresponding author *Spotlight selection*
16. Masuda I, Matsubara R, Christian T, Rojas E, **Yadavalli SS**, Huang KC, Goulian M, and Hou YM. (2019)
tRNA Methylation Is a Global Determinant of Bacterial Multi-drug Resistance.
Cell Syst. 8 (4):302-314
15. **Yadavalli SS**, Xiao Q, Sherman SE, Klein ML, Goulian M, and Percec V. (2019)
Bioactive cell-like hybrids from dendrimersomes with a human cell membrane and its components.
Proc. Natl. Acad. Sci. USA. 116 (3): 744-752
14. Roggiani M, **Yadavalli SS**, Goulian M. (2017)
Natural variation of a sensor kinase controlling a conserved stress response pathway in Escherichia coli.
PLoS Genet. 13 (11): e1007101
13. Jishkariani D, MacDermaid CM, Timsina YN, Grama S, Gillani SS, Divar M, **Yadavalli SS**, Moussodia R-O, Leowanawat P, Berrios Camacho AM, Walter R, Goulian M, Klein ML, Percec V. (2017)
Self-interrupted synthesis of sterically hindered aliphatic polyamide dendrimers.
Proc. Natl. Acad. Sci. USA. 114 (12): E2275 – 84
12. **Yadavalli SS***, Carey JN, Chen AI, Leibman R, Stern A, Roggiani M, Lippa A and Goulian M*. (2016)
Antimicrobial peptides trigger a division block in Escherichia coli through stimulation of a signaling system.
Nat. Commun. 7: 12340 *Corresponding author *F1000Prime recommended*
11. Xiao Q, Rubien JD, Wang Z, Reed EH, Hammer DA, Sahoo D, Heiney PA, **Yadavalli SS**, Goulian M, Wilner SE, Baumgart T, Vinogradov SA, Klein ML, and Percec V. (2016)
Self-sorting and co-assembly of fluorinated, hydrogenated, and hybrid Janus dendrimers into dendrimersomes.
J. Am. Chem. Soc. 138 (38): 12655–63
10. Xiao Q*, **Yadavalli SS***, Zhang S, Sherman SE, Fiorin E, da Silva L, Wilson DA, Hammer DA, Andre S, Gabius HJ, Klein ML, Goulian M, Percec V. (2016)
Bioactive cell-like hybrids co-assembled from (glyco)dendrimersomes with bacterial membranes.
Proc. Natl. Acad. Sci. USA. 113 (9): E1134–41 *Equal contribution

9. **Yadavalli SS** and Ibba M. (2013)
Selection of tRNA charging quality control mechanisms that increase mistranslation of the genetic code.
Nucleic Acids Res. 41 (2): 1104–12
8. Elo, JM*, **Yadavalli SS***, Euro L, Isohanni P, Gtz A, Carroll C, Valanne L, Alkuraya FS, Uusimaa J, Paetau A, Caruso EM, Pihko H, Ibba M, Tyynismaa H, Suomalainen A. (2012)
Mitochondrial phenylalanyl-tRNA synthetase mutations underlie fatal infantile Alpers encephalopathy.
Hum. Mol. Genet. 21 (20): 4521–9 *Equal contribution
7. **Yadavalli SS** and Ibba M. (2012)
Quality control in aminoacyl-tRNA synthesis: its role in translational fidelity.
Adv. Prot. Chem. Struct. Biol. 86: 1–43
6. Banerjee R, Reynolds NM, **Yadavalli SS**, Rice C, Roy H, Banerjee P, Alexander RW, Ibba M. (2011)
Human mitochondrial aminoacyl-tRNA synthetase single nucleotide polymorphisms that lead to defects in refolding but not aminoacylation.
J. Mol. Biol. 410 (2): 280–93
5. Banerjee R, Chen S, Dare K, Gilreath M, Praetorius-Ibba M, Raina M, Reynolds NM, Rogers T, Roy H, **Yadavalli SS**, Ibba M. (2010)
tRNAs: cellular barcodes for amino acids.
FEBS Lett. 584 (2): 387–95
4. **Yadavalli SS**, Klipcan L, Zozulya A, Banerjee R, Svergun D, Safro M, Ibba M. (2009)
Large-scale movement of functional domains facilitates aminoacylation by human mitochondrial phenylalanyl-tRNA synthetase.
FEBS Lett. 583 (19): 3204–8
3. Ling J, So BR, **Yadavalli SS**, Roy H, Shoji S, Fredrick K, Musier-Forsyth K, Ibba M. (2009)
Resampling and editing of mischarged tRNA prior to translation elongation.
Mol. Cell 33 (5): 654–60
2. **Yadavalli SS**, Musier-Forsyth K, Ibba M. (2008)
The return of pretransfer editing in protein synthesis.
Proc. Natl. Acad. Sci. USA. 105 (49): 19031–2
1. Ling J, **Yadavalli SS**, Ibba M. (2007)
Phenylalanyl-tRNA synthetase editing defects result in efficient mistranslation of phenylalanine codons as tyrosine.
RNA 13 (11): 1881–6

INVITED TALKS

- 2022 Small Proteins and Epitranscriptomic Factors: Emerging mechanisms in bacterial gene regulation.
13. Institute for Infectious and Inflammatory Diseases (i3D) 2022 Faculty Retreat, Rutgers University, Piscataway NJ (Virtual)
- 2022 Development of an in vivo photo-cross-linking method to identify small protein targets.
12. Small Small Protein Meeting at the National Institutes of Health (NIH), Bethesda MD (Virtual)
- 2021 Small but mighty regulators of bacterial gene expression and stress response.

11. Biology Seminar series at the University of Delaware, Newark DE (Virtual)
- 2021 *Small Proteins and Epitranscriptomic Factors: Emerging mechanisms in bacterial gene regulation.*
 10. Lambda Lunch Seminar series at the National Institutes of Health (NIH), Bethesda MD (Virtual)
- 2021 *An epitranscriptomic enzyme moonlights in bacterial stress response.*
 9. Evelyn M. Witkin 100th Birthday Symposium at Waksman Institute of Microbiology, Rutgers University, Piscataway NJ (Virtual)
- 2021 *Small proteins and epitranscriptomic factors: Emerging regulators of bacterial gene expression.*
 8. Division of Life Sciences New Faculty Symposium, Rutgers University, Piscataway NJ (Virtual)
- 2020 *Bacterial stress response to antimicrobial peptides.*
 7. Annual Symposium, Microbiology at Rutgers University, Piscataway NJ
- 2018 *Bacterial stress response to antimicrobial peptides.*
 6. Rutgers University (Genetics), Piscataway NJ
- 2018 *Antimicrobial peptide stress response in E. coli.*
 5. Institute of Marine and Environmental Technology, Baltimore MD
- 2017 *Navigating an academic career: PhD to postdoc (Interdisciplinary Graduate Programs Career Day).*
 4. The Ohio State University, Columbus OH
- 2017 *Antimicrobial peptide stress response in E. coli.*
 3. University of Oklahoma, Oklahoma City OK
 2. University of Toronto, Toronto Canada
- 2017 *Antimicrobial stress response in bacteria.*
 1. University of California at Riverside, Riverside CA

CONFERENCE PRESENTATIONS

- 2017 **Yadavalli SS**, Carey J, Leibman R, Stern A, Roggiani M, Lippa A and Goulian M
Antimicrobial peptides trigger a division block in E. coli through PhoQ signaling.
 17. Waksman Annual Retreat, Rutgers University, Piscataway NJ.
 16. Chemical and Biomolecular Engineering Conference, Dow Chemicals & University of Pennsylvania, Philadelphia PA.
- 2016 **Yadavalli SS**, Carey J, Leibman R, Stern A, Roggiani M, Lippa A and Goulian M
Antimicrobial peptides trigger a division block in E. coli through PhoQ signaling.
 15. Microbial Stress Response Gordon Research Conference at Mount Holyoke, MA.
- 2015 **Yadavalli SS**, Carey J, Leibman R, Stern A, Roggiani M, Lippa A and Goulian M
Modulation of cell division by a signal transduction system in E. coli.
 14. Prokaryotic Seminar Series, Microbiology and Molecular Biology, University of Pennsylvania, Philadelphia PA.
 13. Molecular Genetics of Bacteria and Phages meeting, University of Wisconsin, Madison.
- Yadavalli SS**, Carey J, Leibman R, Stern A, Roggiani M, Lippa A and Goulian M
PhoQ/PhoP-dependent filamentation of E. coli.
 12. Biochemistry and Molecular Biophysics Friday Research Discussion seminar series, University of Pennsylvania, Philadelphia PA.

- 2014 **Yadavalli SS**, and Goulian M
Regulation of the PhoQ histidine kinase by small membrane protein MgrB.
 11. Molecular Genetics of Bacteria and Phages meeting, University of Wisconsin, Madison.
Yadavalli SS, Carey J, Leibman R, Stern A, Roggiani M, Lippa A and Goulian M
Filamentation of E. coli by hyperactivation of PhoQ-PhoP two component system.
 10. Prokaryotic Seminar Series, Microbiology and Molecular Biology, University of Pennsylvania, Philadelphia PA.
- 2013 **Yadavalli SS**, Carey J, Leibman R, Stern A, Roggiani M, Lippa A and Goulian M
Filamentation of E. coli by hyperactivation of PhoQ-PhoP two component system.
 9. Bacteria, Archaea and Phages meeting at University of Wisconsin, Madison.
Yadavalli SS, and Ibba M
Role of phenylalanyl-tRNA synthetase in aminoacylation, translation quality control and disease.
 8. Prokaryotic Seminar Series, Microbiology and Molecular Biology, University of Pennsylvania, Philadelphia PA.
- 2012 **Yadavalli SS**, and Ibba M
Divergent requirements for quality control mechanisms in bacterial translation.
 7. Bacteria, Archaea and Phages meeting at University of Wisconsin, Madison.
- 2011 **Yadavalli SS**, and Ibba M
To edit or not to edit: the Mycoplasma question.
 6. Microbiology department annual seminar series, The Ohio State University, Columbus OH.
- 2010 **Yadavalli SS**, Klipcan L, Zozulya A, Svergun D, Safro M, and Ibba M
Conformational change essential for productive tRNA recognition by an aminoacyl-tRNA synthetase.
 5. Microbiology department annual seminar series, The Ohio State University, Columbus OH.
Yadavalli SS, Ignatov M, Musier-Forsyth K, and Ibba M.
Protein-RNA dynamics during post-transfer editing by phenylalanyl-tRNA synthetase.
 4. 23rd tRNA Workshop at Aveiro, Portugal.
- 2009 **Yadavalli SS**, Ling J, So BR, Shoji S, Roy H, Fredrick K, Musier-Forsyth K, and Ibba M
Resampling and editing of mischarged tRNA prior to translation elongation.
 3. Ohio Branch American Society of Microbiology (OBASM) Meeting, Athens OH.
Yadavalli SS and Ibba M.
How does PheRS ensure aminoacylation fidelity?
 2. Microbiology department annual seminar series, The Ohio State University, Columbus OH.
- 2008 **Yadavalli SS**, Ling J, So BR, Shoji S, Roy H, Fredrick K, Musier-Forsyth K, and Ibba M.
Resampling and editing of mischarged tRNA prior to translation elongation.
 1. Rustbelt RNA Meeting at Mount Sterling, Ohio.

FUNDING

- 2021 Rutgers-New Brunswick COVID Impact on Scholarly Productivity Faculty Grant 2021-2022
 2020 Rutgers Busch Biomedical Grant 2020-2022
 2019 Institutional start-up funds (Waksman Institute of Microbiology, Department of Genetics, and the School of Arts and Sciences)

MENTORING

Rutgers University

Graduate and Undergraduate students

1. Pranavi Jagadeesan (Master of Science in Biomedical Sciences, Fall 2021-present)
2. Shokufeh Nourallahi (Volunteer researcher, Fall 2021)
3. Hifsa Abbasi (Undergraduate Microbiology Major, Summer 2021-present)
4. Hannah Lake (Undergraduate Genetics Major, Summer 2021)
5. Daryl Von Herbert (Master of Science in Clinical Research Management, Fall 2020)
6. McKenzie Burge (Molecular Biosciences graduate student, Spring 2020-Summer 2021)
7. Samuel Adeleye (Molecular Biosciences graduate student, Spring 2020-present)
8. Sangeevan Vellappan (Molecular Biosciences graduate student, Spring 2020-present)
9. Debbie Cerda (Undergraduate Genetics Major, 2019-2020)

Students - other

1. Saai Anugraha Tiruchendurai Suryanarayanan (Department of Genetics, Ph.D. oral qualifying exam committee, 2021)
2. Ayla Boyd (Department of Genetics, Honors thesis committee, 2021)
3. Sukanya Das (Shah lab, Fall 2018)
4. Alex Gorbunov (Severinov-Nickels labs, Fall 2018)
5. Jiayu Shen (Nickels lab, rotation, 2017-2018)

University of Pennsylvania

1. Ted Goh (Undergraduate Honors Thesis, Swarthmore University, 2013-2014)
2. Dr. Shiyong Ren, Huaiyin institute of Technology, China (Visiting Professor, Goulian lab, 2012 - 2013)
3. Annie I. Chen (Goulian lab, Ph.D., 2014 - 2017)
4. Yitian Zhou (Zhu lab, Ph.D. rotation, 2014)

The Ohio State University

1. Eric Caruso (Undergraduate researcher and co-author on a manuscript, 2011-2012)
2. Eileen Gulertekin (Undergraduate researcher, 2011-2012)
3. Chaojie Wang (Ibba lab, Ph.D. rotation, 2011)
4. Diana Norden (Ibba lab, Ph.D. rotation, 2011)
5. Rajat Banarjee, University of Calcutta, India (Visiting Professor and co-author on 3 manuscripts, Ibba lab, 2008-2009)

Trainee Awards

- 2021 Samuel Adeleye (graduate student) - Benedict Michael Pre-doctoral Fellowship for the top-ranked applicant at the Waksman Institute of Microbiology.
- 2021 Hifsa Abbasi (undergrad, Microbiology major) - Rutgers University Pipeline - Initiative for Maximizing Student Development - Summer Undergraduate Research Fellowship.
- 2021 Hannah Lake (undergrad, Genetics major) - Division of Life Sciences Summer Undergraduate Research Fellowship.
- 2021 McKenzie Burge (graduate student) - Rutgers-NIH Biotech Training Fellowship.
- 2020 Samuel Adeleye (graduate student) - Charles and Johanna Busch Pre-doctoral Fellowship.
- 2020 Debbie Cerda (undergrad) - Division of Life Sciences Summer Undergraduate Research Fellowship.

TEACHING

Faculty

- Fall 2021 Genetic Analysis I 01:447:384 for Genetics majors
- Fall 2020 Genetic Analysis I 01:447:384 for Genetics majors
- Spring 2022 Ethical Scientific Conduct Refresher 16:115:558 for graduate students and postdocs
- Spring 2021 Ethical Scientific Conduct 16:115:556 for graduate students and postdocs

Graduate Teaching Assistant

- Spring 2010 General Microbiology II
- Winter 2009 General Microbiology II
- Fall 2009 General Microbiology I
- Spring 2008 General Microbiology II
- Fall 2007 General Microbiology I
- Spring 2007 Basic and Practical Microbiology
- Fall 2006 Basic and Practical Microbiology

PROFESSIONAL SERVICE

- 2017-present Ad-hoc reviewer at eLife, PLoS Genetics, Journal of Bacteriology, Frontiers in Molecular Biosciences, and Bio-protocol
- 2021-present Co-leader and administrator for Slack group for Small Protein research community of over 120 trainees and faculty members, "Small proteins, Big questions"
- 2022-present Waksman Seminar Committee for student-invited talks, Waksman Institute of Microbiology, Rutgers University
- 2021-present Diversity and Strategic Planning Committee, Waksman Institute of Microbiology, Rutgers University
- 2020-present Graduate student recruitment for Molecular Biosciences and Microbial biology programs, Rutgers University
- 2020-present Diversity and Strategic Planning Committee, Department of Genetics, Rutgers University
- 2019-present Departmental Seminar Planning Committee, Department of Genetics, Rutgers University

Invited panelist:

- 2022 Judge for talks and posters at the 2022 Annual Graduate Student Research Symposium for biomedical graduate students and postdocs, Rutgers University, Piscataway NJ.
- 2021 Academic career paths: career panel for biomedical graduate students and postdocs, Rutgers University, Piscataway NJ (virtual).

- 2020 Women in academia: biology career panel for the graduate students and postdocs as part of the iJOBS program, Rutgers University, Piscataway NJ (Virtual).
- 2016 Presentation judge - Graduate presentations at the Annual retreat for Department of Biology, University of Pennsylvania, Philadelphia PA.
- 2015 Penn Women's Biomedical Society General Body Meeting, University of Pennsylvania, Philadelphia PA.
- 2010 Presentation judge - Biological, Mathematical, and Physical Sciences Undergraduate Research Forum, The Ohio State University, Columbus OH.
- 2009-2010 Elected student representative on the Graduate Admissions Committee, Dept. of Microbiology, The Ohio State University, Columbus OH.

PROFESSIONAL AFFILIATIONS

American Society of Microbiology (ASM)
Human Genetics Institute of New Jersey (HGINJ), Rutgers
Institute for Infectious and Inflammatory Diseases (i3D), Rutgers
Graduate Program in Microbiology and Molecular Genetics (MMG), Rutgers
Graduate Program in Microbial Biology, Rutgers
Rustbelt RNA Society

WORKSHOPS

- 2021 Rutgers Connection Network (RCN) Mentoring Program
- 2020 Summer Institutes on Scientific Teaching, On-line
- 2009 Seventh Annual Dawn of the New Enzymology Kinetics, conducted by Dr. Kenneth Johnson, Austin TX

OUTREACH EXPERIENCE

- 2022 Interviewed by Ms. Ciara Weller, a freshman student at the Ernest Mario School of Pharmacy for her scientific writing class assignment, "Interview with a Scientist" conducted by Dr. Donald Dow, Rutgers University, Piscataway NJ.
- 2021 Shadowing experience for high-school student, Enna Chiu, from Highland Park High School, Highland Park NJ.
- 2020 Knowledge and power: Issues in women's leadership - interviewed by Ms. Olivia Becker, a freshman Honors College and Douglass Residential College student at Rutgers University, Piscataway NJ.
- 2018 Judge for 2017 Waksman Student Scholars Program (WSSP) Forum Poster Session held at Rutgers University Busch Campus Center, Piscataway NJ.
- 2016 Judge for the middle school student poster presentations at the Annual Science Fair at Penn Alexander School, Philadelphia PA.
- 2016 Volunteered as biology expert at the first annual Science Expert Expo at Penn Alexander School, Philadelphia PA.
- 2014 Co-mentored a middle-school student, Donte Carr through the Philadelphia public school SPARK Apprenticeship program, Philadelphia PA.
- 2011 Demonstrations using liquid nitrogen to freeze different substances and ice cream making. Understanding physical and chemical properties of matter with Ms. Carnate at Hilltonia Middle School, Columbus OH.
- 2010 Mentored and trained a high-school student (Andrew Bogart) from Metro Early College High School, Columbus OH through the BODIES Internship program.
- 2010 Shadow mentor for high-school student (Andrew Klingel) from Metro Early College High School, Columbus OH.

2010 Demonstrations with heating of gases trapped in airtight jars and laughing gas (N_2O). Understanding Global warming with Ms.Rucker at Hilltonia Middle School, Columbus OH.

2010 Demonstrations using dry ice and make-your-own glowstick. Experiments for Halloween with Ms.Carnate at Hilltonia Middle School, Columbus OH.
